## Massage Night - July 2006

In July we hosted a massage night, unfortunately the masseur we had lined up for the night was unable to make it due to other commitments. Fortunately, this was not a problem as some of our members that had turned up knew the basics of massage and were able to give tips on how to give a good massage. Without the masseur we also missing a proper table, but we improvised as the photos below show. It wasn't all work though, as everyone who attended the workshop received a nice relaxing massage.
